

Weekly Communication 5/26/2011

Key items for this week:

MEMORIAL DAY - HOLIDAY SCHEDULE:

In observance of Memorial Day, Cirrus Aircraft will be closed Monday, May 30, 2011. AOG/Emergency technical assistance will be available via the Hotline number at [1.800.279.4322](tel:18002794322).

We wish everyone a safe and happy weekend!

SAVE THE DATE - 2011 CIRRUS PARTNER SYMPOSIUM:

The 2011 Symposium will be held September 26, 2011 through September 28, 2011 in Duluth, Minnesota. Invitations for the Support Symposium will be emailed in the near future. We are planning a similar format to the previous events including a track style topic and presentation schedule. Watch for invitations and registration information in the coming weeks.

CIRRUS AIRCRAFT ENGINEERING BLOG:

We would like to remind you of the Cirrus Aircraft Engineering Blog. This forum is a way to communicate items of engineering interest and specifically Cirrus piston aircraft development, design, and field issues.

We hope to share our successes and provide a glimpse into the life of Cirrus Engineering.

Please visit <http://cirrusengineering.blogspot.com/> for updates on the following topics and more:

- Transponder Headset Noise (cont.)
- Tornado Alley Turbo Service Instruction
- Flap Torque Tube End Fitting Chafing
- Headset Noise

- [Cirrus Aircraft](#)
- [Garmin](#)

When you're passionate about aviation - which we're sure you are - it's never too early for a sneak peek at what innovations tomorrow holds. In just the past handful of years we've seen advancements that would have been thought impossible not all that long ago.

While many like to guess at what the next big leap forward might be, we've got the Inside scoop on exactly that. And you're invited.

The Inside Cirrus 2011 event is your chance to step behind the velvet ropes and experience first hand what's new - and more importantly, what's next - from the industry's top leaders.

Join Cirrus Aircraft, along with representatives from Bose and Garmin, at the location and date most convenient to you.
